The **Interdisciplinary Journal of e-Skills and Lifelong Learning: (IJELL)** is a peer-reviewed journal that publishes scholarly articles on the development of electronic skills and lifelong learning.

This includes using various technologies to develop e-skills and to support lifelong learning. In addition, articles with a sound underpinning of pedagogical principles and design science, on the development of e-skills using information technology are also welcome. The journal publishes conceptual, theoretical and empirical papers.

All manuscripts are submitted and reviewed electronically. We provide our published authors with both a quality print publication and the widespread readership that comes from publishing all articles online within a few weeks of acceptance. This approach ensures that published works are read and cited by the widest possible audience

IJELL is an academically peer reviewed Journal. All submissions are blind refereed by three or more peers. IJELL is published in print by subscription and its articles also appear online free of charge on the web site <http://ijell.org>

IJELL is listed in Cabell's Directory of Publishing Opportunities in Educational Technology & Library Science, Cabell's Directory of Publishing Opportunities in Educational Curriculum & Methods, Directory of Open Access Journals (DOAJ), EBSCO, Index of Information Systems Journals, Intute, Ulrichs.
